The Atlantic Coast S Gaugers is a nonprofit club that does not discriminate on the basis of scale, gauge, race, creed or color.

**Carolinas
Div.
Super 8**

**DEDICATED TO THE GENIUS
OF A.C.GILBERT - CREATOR
OF AMERICAN FLYER S**

Welcome to the Atlantic Coast S Gaugers. Our club is a not for profit club originating in the Richmond, VA area in 1998. We now have 7 divisions along the Atlantic Coast (Blue Ridge of VA— serving the western VA area; Carolinas Div.—serving N. & S. Carolina; Georgia— serving the Atlanta, GA area; N. Florida- serving N. FL area; Tidewater—serving the Norfolk area; VA Central—serving the Richmond area; Washington & Old Dominion—serving the N. VA / DC area.

The Club's focus is American Flyer S gauge trains and newer S gauge manufacturers. Members enjoy home layouts, collecting and getting together at shows and sales to build larger layouts and run their trains and talk with show attendees. In recent years the Carolina Division built a small four-module layout to take to one-day shows that is up and running in one hour. We also invite other people collecting other gauge trains to run their S gauge trains with us. Even if you don't have trains but enjoy running trains please join us.

The Club is a "just for the fun of it club". We formed following the model of the Baltimore Area A.F. Club and St. Louis A.F. Clubs. The ACSG Club has no formal rules, instead it is governed by the following "no-rules" rules:

NO Dues

NO Officers, Officials, or Official Stuff

NO Constitution or Bylaws

Operation is by consensus, the majority rules unless the minority is unable to go along with it then we just don't do it.

Individual members will be called upon to perform various tasks.

The primary method of communication is email.

Club funds are generated from fees collected for operating the various modular layouts. Members should get free admission to these shows.
